### Section 5. Fire Fighting Measures

**Suitable extinguishing equipment:**

Dry chemical, CO<sub>2</sub>, chemical foam or water spray. Consider suitable extinguishing media for surrounding fire.

**Specific hazards arising from the chemical:**

Carbon dioxide, carbon monoxide & other toxic gases may be produced in the case of fire.

**Special protective equipment and precautions for fire fighters:**

Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire

### Section 6. Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures:**

Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin & eye contamination. Stop leak if safe to do so. Ensure adequate ventilation.

**Environmental precautions:**

Ensure no spillage enters drains or waterways. If product does enter a waterway, advise the Environmental Protection Authority or local Council.

**Methods and materials for containment and cleaning up:**

Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect & seal in properly labeled drums for disposal.

### Section 7. Handling and Storage

**Precautions for safe handling:**

Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing.

**Conditions for safe storage, including incompatibilities**

Store in a cool, dry, well-ventilated place & out of direct sunlight. Keep containers closed at all times - check regularly for spills.

### Section 8. Exposure Controls and Personal Protection

**National Exposure Standards:** None of the components have an established Occupational Exposure Limit (Source: Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants).

**Engineering Controls:**

Natural ventilation should be adequate under normal use conditions. Keep containers closed when not in use.

**Individual Protection Measures:**

**Eye and face protection** Safety glasses should be worn to prevent eye contact.

**Skin protection** Wear rubber gloves to avoid contact with skin.

**Respiratory protection** Not normally needed. If significant vapours or mists are generated, use an appropriate respirator in accordance with AS/NZS 1715 and AS/NZS 1716.

**Thermal hazards** Refer to Section 5.
