

Australian owned and operated since 1986, True Blue Chemicals manufacture and supply an extensive range of cleaning and sanitising chemicals to meet the varied needs of the housekeeping team. From facilities that provide dining and entertainment areas, to those that encompass accommodation and bathrooms, we at True Blue Chemicals help provide a safe, clean and hygienic environment.

When you partner with True Blue Chemicals as your chemical supplier you benefit from:

- **Experience** and knowledge gained from supplying cleaning products to hospitality, healthcare and industrial customers
- **Concentrated** quality products, including an environmental offering manufactured in Australia
- **Dispensing** solution expertise and assistance to ensure selection of the appropriate Dispenser and chemical dispensing at correct dilution rates
- **Service** that is genuine and responsive from an Australia wide distribution network
- **Site audit** and visitation schedules tailored to customer and site specific needs
- **Compliance** support provided through training programs and associated documentation.

Now is the time to get a better deal for your cleaning and hygiene requirements. For an obligation-free discussion, site survey and product recommendation talk to True Blue Chemicals or one of our National Distributors today. We'll help you meet the cleaning and hygiene needs of your facility.

HOUSEKEEPING

We offer a comprehensive range of highly concentrated cleaning and sanitising formulations to meet the needs of the Housekeeping team.

From removing grime build up on floors, walls and fittings, to bringing shine back to bathroom surfaces, windows and glass, our six housekeeping products make cleaning easier. They'll also freshen and deodorise cleaned surfaces making for a pleasant and welcoming room. Screen printed bottles ensure that your staff use the right product, with the right dilution rates to get the job done efficiently and economically. Our numbering system makes dispensing and refilling easy.

<p>USEALL HARD SURFACE CLEANER</p> <p>4</p>	<p>A versatile neutral all-purpose detergent which effectively cuts through grime, leaving surfaces free of grease and soil build-ups, providing a lasting shine finish. The versatility of USEALL makes it a must for the customer looking to use one product for many cleaning needs.</p>
<p>BLUE LAZER BATHROOM CLEANER</p> <p>9</p>	<p>The complete toilet bowl, urinal, shower and washroom cleaner. BLUE LAZER is a commercial strength cleaner with a unique detergent system making it a highly effective toilet and urinal cleaner to rapidly remove body fats, soap scum, mildew, rust, lime scale and build-ups of uric acid.</p>
<p>B&N WINDOW CLEANER GLASS CLEANER</p> <p>19</p>	<p>Non-streaking glass, window and mirror cleaner that penetrates and dissolves deposits of dirt, film and oily stains. With a non-ammoniated formula B&N WINDOW CLEANER is ideal for cleaning tinted glass and chrome surfaces.</p>
<p>TOPAZ CREAM SURFACE CLEANSER</p>	<p>Non-scratch cream cleaner. TOPAZ cleans, shines and protects baths, basins, sinks, tiles, shower screens, stoves, refrigerators, laminex and stainless steel.</p>
<p>CLEANKILL DISINFECTANT</p> <p>14</p>	<p>Concentrated high foaming, grease releasing sanitiser. CLEANKILL is a blend of grease cutting and emulsifying agents boosted with a super-chlorinated bleaching and germ killer.</p>
<p>AD-ZORBA DEODORISER</p> <p>20</p>	<p>Highly effective odour treatment that chemically encapsulates odour and neutralises it. AD-ZORBA does not cover up odour, instead destroys it, leaving a pleasant fresh vanilla fragrance. AD-ZORBA is used to overpower the malodour causing organisms removing odours from carpet, fabric and hard surfaces, and is used as an air deodorant and incontinence spray.</p>
