PRODUCT INFORMATION

PROVIR is a hospital grade disinfectant, featuring a refreshing citrus fragrance.

PROVIR is highly versatile and suitable for most surfaces, with application via mop, foam sprayer, automatic scrubber and manually.

Suitable for healthcare, housekeeping & industrial.

SDS available from our website.

PRODUCT USE

Safelock Packaging is a sealed system to stop free pouring or spilling. PROVIR must be used with a dispensing solution for maximum benefits.

Remove or cover all food. Remove excess soil from surface to be cleaned by hand. Use water to pre-rinse surfaces. Do not mix with detergents and other chemicals.

HOSPITAL GRADE DISINFECTANT: Dilute 1:10 with water.

COVID-19 VIRUS: Dilute 1:10 with water. Apply evenly onto hard surface and let stand for 10 minutes before wiping with clean cloth.

GENERAL PURPOSE CLEANER & SANITISER: Dilute 1:100 with water.

Rinse thoroughly with water after use. Discard diluted solution after use in accordance with local waste management.
