Safelock 2x5L packaging

Meets Environmental Criteria

Suitable for use in food preparation establishments

Fragrance free

Appearance = Blue liquid

Shelf Life = 2 years

PRODUCT USE

Safelock Packaging is a sealed system to stop free pouring or spilling. RINSE AID must be used with a dispensing solution for maximum benefits.

For best results, use in conjunction with either DISHMATIC L or GLAZE.

RINSE AID is designed to be applied in the rinse cycle of automatic warewashing machines through rinse injectors.

It is generally recommended that RINSE AID be used in quantities varying from 0.8 to 1.2 mL per litre.

The quantities may vary according to individual requirements. The quantities may need to be increased in areas where the water is exceptionally hard.
