PRODUCT INFORMATION

SHORE BREAK is a caustic laundry break with water softeners and detergents, to loosen and remove soils in the wash.

SDS available from our website

PRODUCT USE

It is generally recommended that SHORE BREAK be used in quantities varying from 3 to 6 mL per kg of wash load.

Use SHORE BREAK in conjunction with the other products in the SHORE RANGE for a customised laundry solution. For detailed Laundry Programs please contact us.

The quantities may vary according to individual requirements. The quantities may need to be increased in areas where the water is exceptionally hard.

Fragrance free
