

LAUNDET EUCO WHITE

Section 1. Identification

| | | | |
|---|---|------------------------|----------------------------------|
| Product identifier: | Laundet Euco White | Product Code: | LNDTEUC |
| Other means of identification: | N/A | | |
| Recommended use and restrictions on use: | Laundry powder. Use in accordance with directions on product label. | | |
| Supplier: | True Blue Chemicals | | |
| Street Address: | 2/1 Endeavour Road Caringbah NSW 2229 | Postal Address: | PO Box 334 Caringbah NSW 1495 |
| Phone No: | 1800 635 746 | Fax No: | 02 9540 1983 |
| Internet: | www.truebluechemicals.com.au | | |

Emergency Phone No - 13 11 26 - Poisons Information Centre

Section 2. Hazards Identification

Classified as hazardous according to the criteria of Safe Work Australia (SWA).

Classified as Dangerous Goods according to Australian Code for the Transport of Dangerous Goods by Road and Rail.

GHS Classification

Skin corrosion/Irritation - Category 1C
Eye damage - Category 1

Signal Word

DANGER

Hazard Statements

Causes severe skin burns and eye damage

Pictograms

Precautionary Statements

Wash hands thoroughly after handling.
Wear protective gloves, protective clothing, and eye/face protection.
IF SWALLOWED: Rinse mouth. DO NOT induce vomiting.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse.
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
Immediately call the POISONS INFORMATION CENTRE (13 11 26 Australia only).
Store locked up.
Dispose of contents in accordance with State Legislations.

Section 3. Composition and Information on Ingredients

| Chemical Name | CAS Number | Percentage (%) |
|---|------------|----------------|
| Sodium metasilicate | 10213-79-3 | 1-10 |
| Other ingredients determined not to be hazardous or below concentration cut-off | | to 100 |

Laundet Euco White

Section 4. First Aid Measures

- Swallowed:** Rinse mouth. DO NOT induce vomiting. Give water to drink. Call the Poisons Information Centre (13 11 26 Australia only) for advice.
- Eye Contact:** Immediately rinse with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists seek medical advice.
- Skin Contact:** Wash skin with plenty of water. Remove contaminated clothing and wash before reuse. If irritation persists, seek medical advice.
- Inhalation:** Move victim to fresh air. If symptoms develop, seek medical advice.
- Symptoms caused by exposure:** Irritating and burning sensation after direct contact.
- Medical attention and special treatment:** No specific treatment. Treat symptomatically.

Section 5. Fire Fighting Measures

- Suitable extinguishing equipment:**
Use extinguishing media suited to the materials that are burning; eg: dry chemical, CO₂ or water spray.
- Specific hazards arising from the chemical:**
Oxides of carbon, oxides of sulfur and other toxic gases may be produced in the case of fire.
- Special protective equipment and precautions for fire fighters:**
Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire. Ensure no spillage enters drains or water courses.

Section 6. Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures:**
Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin and eye contamination and inhalation of dusts. Stop leak if safe to do so. Ensure adequate ventilation.
- Environmental precautions:**
Ensure no spillage enters drains or waterways. If product does enter a waterway, advise the Environmental Protection Authority or the local Council.
- Methods and materials for containment and cleaning up:**
Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect and seal in properly labelled drums for disposal.

Section 7. Handling and Storage

- Precautions for safe handling:**
Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing.
- Conditions for safe storage, including incompatibilities:**
Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from strong acids and moisture. Keep containers closed at all times - Check regularly for spills.

Section 8. Exposure Controls and Personal Protection

- National Exposure Standards:** None of the components have an established Occupational Exposure Limit according to Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.
- Engineering Controls:**
Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling dusts. Keep containers closed when not in use.
- Individual Protection Measures:**
- Eye and face protection** Safety glasses or chemical resistant goggles should be worn to prevent eye contact.
- Skin protection** Wear rubber gloves to prevent skin contact.

Laundet Euco White

| | |
|-------------------------------|---|
| Respiratory protection | Not normally needed. If significant vapours or dusts are generated, use an appropriate respirator in accordance with AS/NZS 1715 and AS/NSZ 1716. |
| Thermal hazards | Refer to Section 5. |

Section 9. Physical and Chemical Properties

| | | | |
|---|---------------|--|----------------|
| Appearance: | Powder | Colour: | White |
| Odour: | Eucalyptus | Boiling Point: | Not available |
| Vapour Pressure: | Not available | Specific Gravity: | Not applicable |
| Flashpoint (°C): | Not available | Flammability: | Not available |
| Water Solubility: | Complete | pH (1% solution): | 11.0-12.0 |
| Auto-ignition Temperature: | Not available | Viscosity: | Not available |
| Relative Density: | Not available | Evaporation Rate: | Not available |
| Vapour Pressure | Not available | Melting Point/Freezing Point | Not available |
| Partition Coefficient: n-octanol/water | Not available | Upper/Lower Flammability or Explosive Limits: | Not available |

Section 10. Stability and Reactivity

| | |
|--|--|
| Reactivity: | Not reactive |
| Chemical Stability: | Stable under normal ambient storage conditions. |
| Possibility of Hazardous Reactions: | Hazardous polymerization will not occur. |
| Conditions to Avoid: | Avoid high temperatures (store below 30°C). Protect against physical damage. |
| Incompatible Materials: | Do not mix with other chemicals. Store away from acids and strong oxidisers. |
| Hazardous Decomposition Products: | Oxides of carbon, oxides of sulfur. |

Section 11. Toxicological Information
Information on Route of Exposure
Acute Toxicity:

Acute Toxicity Estimated (ATE) value: Not classified

Skin Corrosion/Irritation: Corrosive. Causes severe skin burns and permanent tissue damage.

Serious Eye Damage/Irritation: Corrosive. Causes severe burns and eye damage.

Respiratory or Skin Sensitisation: Not classified

Germ Cell Mutagenicity: Not classified

Carcinogenicity: Not classified

Reproductive Toxicity: Not classified

Specific Target Organ Toxicity (STOT) - Single Exposure: Not classified

Specific Target Organ Toxicity (STOT) - Repeated Exposure: Not classified

Aspiration Hazard: Not classified

Immediate, Delayed and Chronic Health Effects From Exposure: No information available.

Other Information: None known.

Section 12. Ecological Information
Ecotoxicity: No data available

Laundet Euco White

| | |
|-------------------------------|--|
| Persistence and Degradability | Product is expected to be readily biodegradable |
| Bioaccumulative Potential | Not expected to bioaccumulate |
| Mobility in Soil | Low sorption to soil / sediment, moderate migration to ground water (Estimated Log K_{oc} value (EpiSuite KOCWIN): approx. 2.0) |
| Other Adverse Effects | None known. |

Section 13. Disposal Considerations

| | |
|------------------|---|
| Disposal Methods | Refer to State/Territory Land Waste Management Authority. Dispose of material through a licensed waste third party, in accordance with local regulations. |
|------------------|---|

Section 14. Transport Information

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code for transport by Road and Rail.

| | |
|------------------------------|-------------------------|
| UN Number | UN3253 |
| Proper Shipping Name | DISODIUM TRIOXOSILICATE |
| Technical Name | - |
| Transport Hazard Class | 8 |
| Packing Group | III |
| Environmental Hazards | None |
| Special Precautions for User | None |
| Additional Information | None |
| Hazchem Code | 2X |

Section 15. Regulatory Information

| | |
|--------------------------|--|
| NICNAS | All substances are listed on the Australian Inventory of Chemical Substances (AICS). |
| Poisons Schedule (SUSMP) | None allocated. |

Section 16. Other Information

This information is provided to the best of our knowledge and belief, accurate as of the last revision date. It is provided in good faith and relates to the specific materials designated. True Blue Chemicals assumes no liability or responsibility for loss or damage resulting from improper use or handling of our products from incompatible product combinations or from failure to follow usage directions. This document remains the property of True Blue Chemicals Pty Ltd. Alterations are not permitted without prior written authorisation from True Blue Chemicals Pty Ltd.

Glossary:

Peak limitation means a maximum or peak airborne concentration of a substance determined over the shortest analytically practicable period of time which does not exceed 15 minutes.

Log Koc Adsorption Classifications

- > 4.5 Very strong sorption to soil / sediment, negligible migration to ground water
- 3.5 - 4.4 Strong sorption to soil / sediment, negligible to slow migration to ground water
- 2.5 - 3.4 Moderate sorption to soil / sediment, slow migration to ground water
- 1.5 - 2.4 Low sorption to soil / sediment, moderate migration to ground water
- < 1.5 Negligible sorption to soil / sediment, rapid migration to ground water
