### Section 4. First Aid Measures

- Swallowed:** DO NOT induce vomiting. Give plenty of water to drink. Get medical attention.
- Eye Contact:** Rinse with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. If symptoms persist seek medical attention.
- Skin Contact:** Wash skin with plenty of water. If irritation persists, seek medical advice.
- Inhalation:** Move victim to fresh air, if symptoms develop, seek medical advice.
- Symptoms caused by exposure:** May experience burning sensation in eyes.
- Medical attention and special treatment:** No specific treatment. Treat symptomatically.

### Section 5. Fire Fighting Measures

- Suitable extinguishing equipment:**  
Dry chemical, CO<sub>2</sub> or water spray.
- Specific hazards arising from the chemical:**  
Carbon dioxide, carbon monoxide may be produced in the case of fire.
- Special protective equipment and precautions for fire fighters:**  
Firefighters should wear full protective clothing including self-contained breathing apparatus. Remove from the vicinity containers not involved in the fire.

### Section 6. Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures:**  
Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin & eye contamination & inhalation of dust.
- Environmental precautions:**  
Ensure no spillage enters drains or waterways. If product does enter a waterway, advise the Environmental Protection Authority or local Council.
- Methods and materials for containment and cleaning up:**  
Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect & seal in properly labeled drums for disposal.

### Section 7. Handling and Storage

- Precautions for safe handling:**  
Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes.
- Conditions for safe storage, including incompatibilities**  
Store in a cool, dry, well-ventilated place & out of direct sunlight. Store away from strong acids & moisture. Keep containers closed at all times - check regularly for spills.

### Section 8. Exposure Controls and Personal Protection

- National Exposure Standards:** None of the components have an established Occupational Exposure Limit. (Source: Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants 2013)
- Engineering Controls:**  
Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling dusts. Keep containers tightly closed when not in use.
- Individual Protection Measures:**
- Eye and face protection** Safety glasses or chemical resistant goggles should be worn to prevent eye contact.
- Skin protection** Wear rubber gloves to prevent skin contact. Replace gloves regularly to avoid
- Respiratory protection** Not normally needed. If significant dusts are generated, use an appropriate respirator in accordance with AS/NZS 1715 and AS/NZS 1716.
