Safelock™ Ultra

- Features a sealed packaging solution, that prevents free-pouring or spills
- Delivers a no chemical contact solution

How does it work?

Features two key components

1 - Safelock Ultra Insert

Installed inside the 5L during the packaging process.

2 - Safelock Ultra Cap Connection

used as the link between the product and chemical dispenser.

Safelock™ Ultra Range

Food processing cleaner and degreaser

All purpose cleaner

Premium bathroom cleaner

Machine dishwashing detergent

Machine drying agent

TGA approved to kill COVID-19

Highly cost effective dilutions across the range.
