- Safe for aluminum & other surfaces
- Excellent daily cleaner

### PRODUCT INFORMATION

Non Caustic formulation with added solvents and surfactants to lift grease and carbon.

SDS available from our website

### PRODUCT USE

Use EASY OVEN neat and best results are gained with regular use.

**OVENS:** Heat oven until warm and switch off. Apply EASY OVEN and allow to work for 5 to 10 minutes. Agitate the surface to break up the softened carbon deposits and grease, then wipe off and rinse with water.

**HOT PLATES & GRILLS:** Apply EASY OVEN to the warm surface. Agitate with a cloth or scourer and then rinse with water.

For tough soils or cleaning cold surfaces, apply EASY OVEN to the surface and leave for 20 min. Wipe or scourer the surface and rinse well with water.

For deep cleaning, TURBO SOC is recommended.
