PRODUCT USE

FP128 can be used through automatic scrubbers, trigger sprays, pressure washers, foam sprayers and mop & bucket.

Remove or cover food in the area. Remove excess soiling from the surface.

HARD SURFACE CLEANER: Dilute 1:40 with water. Allow time to work and scrub if required.

HIGH PRESSURE SPRAYER: Dilute between 1:80 and 1:160 at the nozzle depending on soiling.

EQUIPMENT & UTENSIL SOAKING: Dilute 1:10 with warm water.

C.I.P CLEANING: Dilute between 1:80 and 1:160 with water.

DAIRY TANKS & EQUIPMENT: Dilute between 1:80 and 1:160 with water. Use in conjunction with SCALE OFF.

Rinse well after use.
