## PRODUCT USE

**LAUNDRY BLEACHING:** KLORIDE is designed to be dosed through an automatic dispenser unit. It is generally recommended that KLORIDE be used in the following quantities:

| Degree of Soiling | Dose per kilo of Laundry |
|-------------------|--------------------------|
| Light             | 2 – 3 mL                 |
| Medium            | 5 – 6 mL                 |
| Heavy             | 12 – 15 mL               |

For detailed Laundry Programs please contact us.

**HARD SURFACES:** Dilute between 1:50 and 1:100 with water and use to sanitise hard surfaces. Rinse off with water.

**1000 PPM CHLORINE SOLUTION:** Dilute 1:100 with water and use to sanitise hard surfaces. Rinse off with water.

**MOULD REMOVAL:** Dilute 1:100 with water and use to sanitise hard surfaces. Rinse off with water.
