PRODUCT USE

For best results, use in conjunction with SAFELOCK K2 Machine Dishwashing Liquid.

Safelock Packaging is a sealed system to stop free pouring or spilling. SAFELOCK K3 is designed to be applied in the rinse cycle of automatic warewashing machines through rinse injectors.

It is generally recommended that SAFELOCK K3 be used in quantities varying from 0.5 to 1.0 mL per litre.

The quantities may vary according to individual requirements. The quantities may need to be increased in areas where the water is exceptionally hard.
